

March 16, 2026

TO OUR VALUED CUSTOMERS,

Due to continued volatility in the global stainless steel market, we are implementing pricing adjustments on stainless steel flanges and buttweld fittings. Recent developments impacting global shipping routes and supply chains have further tightened availability and increased landed costs.

While we work to minimize the impact wherever possible, these adjustments are necessary to ensure continued supply and service levels. We appreciate your understanding and continued partnership.

As a result, Merit Brass will be implementing a price adjustment across the following product categories **effective March 17th, 2026**:

- **Stainless Steel ANSI Flange**
- **Stainless Steel Plate Flanges**
- **Stainless Steel Butt weld Fittings**

These adjustments will be reflected through updated **multipliers**, rather than changes to our published list prices. Orders placed by the end of the day on **March 16, 2026** will be honored at current pricing. We reserve the right to limit quantities based on historical purchases and availability. Please contact your local Merit Brass representative for multiplier details specific to your business.

We recognize the challenges this presents and remain committed to supporting you through this transition with transparency, responsiveness, and partnership. We appreciate your continued trust in Merit Brass.

Sincerely,

Merit Brass Co.
